Pineapple Stitch Shawl – Free Crochet Pattern

For this project you will need 3 ply for the US or 8 ply for AU. I know the picture above she is wearing it upside down, whoops, so beautiful either way!

Also you will need a button if you are making it to be closed. And a 5 mm hook or size H hook for the US. I used 2 ½ skeins of Shan wools Ran – Soft Microfiber yarn – medium green. 100 grams – 3.53 ounces and length is 260 meters or 284 yards. I made mine a shorter shawl so it can be worn as a cape if desired. I have always loved this stitch and wanted it to be sort of a garment as well. But feel free to make it long and use it as a full shawl.

Short shawl get 3 Skeins
Wide shawl get 4 skeins

The multiples of this Crochet Stitch Pattern is 24 + 16 which means you will need to chain loosely in sets of 24 until you have your desired length, when you do add 15 more chains and you're ready to begin. This pattern will be for the shorter

version you see above.

Ch = chain
Sc = single crochet
