

## Simple Booty Crochet Pattern

For this project you will need a 5mm hook , a stitch marker and Tapestry needle.  
Two skeins of worsted weight 4ply US / 10 ply AU yarn and a measuring tape.

Ch = chain

sc = single crochet

scbp = single crochet back post

scfp = single crochet front post

You will be working with two skeins of yarn simultaneously, so grab some yarn from both skeins, and leaving a long tail for sewing the booty later, make a slip knot. Feel free to use two different colors!

There are two default sizes, one for men and one for women. If the woman your making this for has smaller feet then feel free to reduce, if the man your making it for has extra wide feet, feel free to add, just make sure you end up on an odd number. The default size for women is 33 sts with a length of 23 cms or 9 inches. The men's is 43 sts with the same length. Keep in mind these stretch as you walk on them the loosen and form to fit your feet. If you make them to fit the foot exactly, then as they loosen it will become to big. So measure the foot and do  $\frac{3}{4}$  th's of the booty in the first part of the stitch. Then do the last  $\frac{1}{4}$  in the stitch used at the toes.

Once you get the booty pattern down you can make it for any size. I made these for my 4 year old.

This pattern will be for the default women and men sizes. The men size I will put in ( ) 's

To start:

Chain 34 (44)

Row 1

sc in 2<sup>nd</sup> chain from hook and in all sts of the chain. Ch 1 and turn 33 sts (43 sts)

Row 2

sc in first 11 sts (14 sts) then scbp, sc in next 9 sts (13 sts) then scbp, sc in last 11 sts (14 sts) ch 1 and turn

Row 3

sc in first 11 sts (14 sts) then scfp, sc in next 9 sts (13 sts) then scfp, sc in last 11 sts (14 sts) ch 1 and turn. Good to place a marker here so you know which side to scfp

Repeat rows 2 and 3 until your booty reaches 14 cms or 5 ½ inches make sure to end where the scfp side is facing you as shown below. It's important.

As you can see the bottom part should cover 3/4ths of the foot with the back part together because this part will be sewn together.

### Making the Toe Section

To do the toe section, SCFP, then SCBP, and repeat this along the row. Ch 1 and turn.

Repeat this until the booty reaches 23 cms or 9 inches. Stop crocheting with the SCFP side facing you again.

Ch 1 and leaving a long tail for sewing, cut your yarn.

Gather the top stitches by weaving back and forth through the tops of the scfp and scbp stitches. Stopping after you've gathered 6 or so stitches and pull through them, then gather another 6 and repeat.

Pull the yarn tight, forming a cup and put your tapestry needle through the other side of the bootie as shown below

creating a hole, now sew this hole shut by going through both sides of the hole and pulling it closed.

Now work your yarn back toward the bottom of the booty to finish sewing up the toe part.

Once you have reached the foot part of the boot stop sewing and make a few embroidery knots to fasten. The last knot don't go all the way through. Cut your yarn and pull out one of the strings. Then use it to tie a few knots to secure.

Now it's time to sew the bottom of the booty. Thread your tapestry needle using the long tail we left at the beginning and sew down the side of the booty until you reach the last inch. Fold the bottom in a T shape and sew.

Work the yarn back up to the center and tie a knot like before.

Now working with only one thread of yarn, NOT double, we'll start making the rim of the booty.

Do a sc attachment near the front of the booty near the toe section, and work sc's

I usually do a few single crochet decreases at the back and front part of the booty for the first three rounds of single crochets. You will be doing 5 rounds total.

Helps to keep it more snug to the foot.

If you wish to do more than 5 rounds and make your bootie into a high top feel free! Enjoy!
